WHAT IS

Priosa® d+ in detail

What is Priosa® d+?

Priosa® d+ is a nutrient complex with vitamin D2 and D3 as well as vitamin K2, vitamin A, selenium, molybdenum, coenzyme Q10 and NADH. Vitamin D contributes to normal absorption/utilization of calcium and phosphorus.

Vitamin D contributes to the maintenance of normal bones, to normal immune system function and plays a role in cell division.

WHAT PRIOSA® D+ SUPPORTS

The most important of the 19 areas of effect

The vitamins and minerals contained contribute to the following body functions in accordance with EU-approved health claims.

Immune system
Selenium contributes to the normal function of the **immune system**.

Bones
Vitamin D contributes to the maintenance of normal **bones**.

Teeth
Vitamin D contributes to the maintenance of normal **teeth**.

Hair
Selenium contributes to the maintenance of normal **hair**.

Nails
Selenium contributes to the maintenance of normal **nails**.

Iron metabolism
Vitamin A contributes to normal **iron metabolism**.

WHAT CAN

What the nutrients in Priosa® d+ contribute to

- Molybdenum contributes to normal sulphur amino acid metabolism.
- Selenium contributes to the maintenance of normal hair.
- Selenium contributes to the normal function of the immune system.
- Selenium contributes to the protection of cells from oxidative stress.
- Vitamin A contributes to the maintenance of normal mucous membranes.
- Vitamin A contributes to the maintenance of normal vision.
- Vitamin A has a role in the process of cell specialisation.
- Vitamin D contributes to normal blood calcium levels.
- Vitamin D contributes to the maintenance of normal muscle function.
- Vitamin D contributes to the normal function of the immune system.
- Vitamin K contributes to normal blood clotting.
- Selenium contributes to normal spermatogenesis.
- Selenium contributes to the maintenance of normal nails.
- Selenium contributes to the normal thyroid function.
- Vitamin A contributes to normal iron metabolism.
- Vitamin A contributes to the maintenance of normal skin.
- Vitamin A contributes to the normal function of the immune system.
- Vitamin D contributes to normal absorption/utilisation of calcium and phosphorus.
- Vitamin D contributes to the maintenance of normal bones.
- Vitamin D contributes to the maintenance of normal teeth.
- Vitamin D has a role in the process of cell division.
- Vitamin K contributes to the maintenance of normal bones.

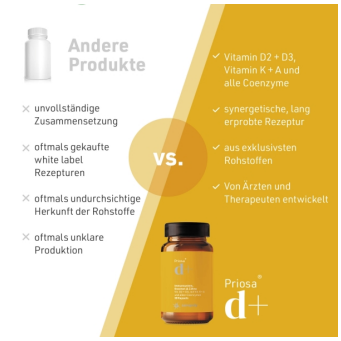

INSIGHTS

MANUFACTURING & QUALITY

Tested quality

Sanopoly develops highly pure nutritional supplements in medically supervised formulations. Production takes place in Austria at an established pharmaceutical contract manufacturer with over 25 years of experience.

ISO 22000

Certified management system for food safety according to international standard.

DEKRA tested

Independent audit of complete quality management by DEKRA.

Laboratory tested

Testing of the ingredients for heavy metals and microbiological purity.

Nutritional values and ingredients

Nutrients	per day (average) * (= 1 Capsules every 3 days)	% NRV **
Vitamin A	120 µg RE	15
Vitamin D2 equals 233 IE per day	5.83 µg	117
Vitamin D3 equals 600 IE per day	15 µg	300
Vitamin K2	11.3 µg	15
Rosehip extract	14 mg	–
Selenium	41.7 µg	76
Molybdenum	13.3 µg	27
Sodium chloride	3.43 mg	–
Boron	0.163 mg	–
NADH	1.98 mg	–
Coenzyme Q-10	3.67 mg	–
Phosphatidylserine	2.8 mg	–
Phosphatidylcholine	1.77 mg	–
Rhodiola rosea root extract Rosavins	13.3 mg 0.4 mg	– –
Bamboo extract Silica	5.83 mg 4.38 mg	– –

** per day (average) ** % NRV = nutrient reference values according to Regulation (EU) No 1169/2011. Vitamins and minerals below 15 % NRV are not listed.*

Recommended intake
1 capsule every 3 days

Ingredients
Ergocalciferol, Hydroxypropyl methylcellulose (capsule shell), Calcium citrate, Magnesium citrate, Sodium fluoride, Rosehip extract, Rhodiola rosea root extract, L-Selenomethionine, Corn starch, Cholecalciferol, Phosphatidylcholine from SOY lecithin, Bamboo Extract, Menaquinone, Phosphatidylserine from SOYA, Coenzyme Q10, Sodium chloride, Nicotinamide Adenine Dinucleotide reduced, D-alpha-Tocopheryl acetate, Zinc gluconate, Zinc bisglycinate, Sodium borate, Sodium molybdate, Retinyl acetate.

Notes
Do not exceed the stated recommended daily intake. Food supplements are not a substitute for a varied diet. A balanced diet and healthy lifestyle are important. Keep out of reach of small children. Store at room temperature (max. 25 °C), dry and protected from light. Use within 3 months of opening the packaging.*
Persons taking anticoagulant medicines (anticoagulants) should consult their doctor before taking vitamin K and Q-10 preparations. The product should not be consumed by pregnant women, nursing mothers, children and adolescents under 18 years of age.
* Exceptions are packaging units whose daily dose and sales quantity require intake over a longer period.
